## SALVATION ARMY'S DRIVE FOR FUNDS TO START SOON

Glendale's Quota Is \$5000  
and Plans Are Made to  
Go Over Top

The Salvation Army's annual drive for funds to carry on its humanitarian work will have its start in the San Fernando Valley December 5, 6 and 7, when civic, fraternal and patriotic organizations of Glendale's start out en masse to raise Glendale's quota of \$5,000.

Announcement to this effect was made this morning by Dan Kelly, who, with E. F. Heiser and P. J. Hayselden, comprise the publicity committee appointed to stir up the public's spirit of generosity.

Captain D. Ripley Jackson, postmaster, is chairman of the drive; Charles Hahn is secretary, and Julius Kranz is treasurer. Drive headquarters will be established today in the offices of Mr. Kranz, 113 west Broadway.

### Every Organization Participating

Every organization in the city is putting its shoulders behind the drive. They include the Masons, Knights of Columbus, Kiwanis, Rotary, Exchange Club, Merchants Association, Thursday Afternoon Club, Elks, Credit Men's Association, Glendale Advance-ment Club, Unity Lodge and Unit Chapter, Shrine Club, American Legion and the Women's Auxiliary, South San Fernando Improvement Association, Parent-Teachers' Federation and the Spanish War Veterans.

Members of the foregoing clubs were divided by Captain Jackson into teams of four men each. These in turn were assigned to specified avenues for obtaining funds. For example, one group will call on the membership of the Elks Lodge, another on the membership of the Knights of Columbus, etc.

In this way, Mr. Kelly stated this morning, the task of canvassing the whole city will be thoroughly effected in a few days. He asserted also that the drive committee is going to emulate the Salvation Army in its drive work by (Continued on Page 10)

## HOLLYWOOD'S LEADING PAPER WARNS THIS CITY AGAINST ANNEXING TO LOS ANGELES

Place No Confidence In Promises Made By  
City Council, Says Writer; Officials  
Have No Conscience, Is Claim

Under the caption "A Tip to Glendale," The Hollywood Daily Citizen, the leading daily newspaper published in Hollywood, annexed to Los Angeles, published the following editorial in last Saturday's issue:

"Glendale is considering the question of annexation to Los Angeles.

"That's Glendale's business. 'She hasn't asked for any outside advice and probably doesn't want any.

"However, we are going to give her just a little.

"Yesterday the City Council of Los Angeles made certain assurances to Glendale as to what the Los Angeles government would do in the event Glendale joined the big city.

"We only want to warn Glendale against placing any confidence in the assurance of the Los Angeles city council.

"In the first place new faces constantly appear in the Los Angeles city council and there exists nothing that requires the possessors of those faces to carry out the promises of their predecessors.

"In the second place there are members of the present city council who have no conscience that prevents their stealing streets from the people and the same abominable conscience permits the making of any kind of promises without the slightest intent of making them good.

"When the city council promises Glendale that the city officials will assist Glendale in the event she joins us, in securing proper street car fares, gas and phone rates, Glendale can take it from Hollywood that the city council doesn't mean the promise in the least.

### No Co-operation

"Hollywood in its fight to secure decent transportation service at a respectable fare has had not

### Miss Lila van Kirk to Lecture at Club

"A Walk Through the Streets of Florence" will be sketched tomorrow at the meeting of the Tuesday Afternoon club, by Miss Lila van Kirk of New York, artist, traveler and lecturer. She will speak at 2:30 o'clock, following the usual hour of community singing.

Miss van Kirk had the privilege of being the only American woman associated with the Italian government during the recent war. This experience afforded her the opportunity of securing authentic information regarding war issues, especially data concerning the Dalmatian coast. According to reports this experience and years of travel and study in Italy and other foreign countries have fitted her admirably for a club lecturer.

## Campaign Against Street Holes Starts

A campaign against street holes is to be waged immediately, according to City Manager W. H. Reeves. He announced this morning that a new truck was being put into service exclusively for this work. Ruts and miniature shell holes in the highways, which caused many a motorist to scold the city administration, will be repaired as rapidly as possible. Leonard deWard, superintendent of the street department, urges a little patience.

## ANTI-ANNEXATION FORCES TO FORM ORGANIZATION

Meeting Will Be Held at  
High School Auditorium  
at 8 o'Clock

A meeting will be held in the Glendale Union High school auditorium at 8 o'clock tonight for the purpose, it is announced, of forming a permanent organization to oppose annexation to Los Angeles.

It is pointed out that those favoring annexation have an organization, with officers and committees, and it is believed that an anti-annexation organization will be of great benefit in aiding Glendale to retain its identity as an independent city—the fastest growing in America.

The call for tonight's meeting, which is open to all who are against annexing to Los Angeles, is as follows:

"All loyal citizens of Glendale who believe in preserving the entity of the city under its own name, are invited to meet at the Glendale Union high school auditorium Monday night, at 8 o'clock, for the purpose of forming a permanent anti-annexation organization."

The call is signed by the following:

### FEDERAL GOVERNMENT LOSES IN HIGH COURT

WASHINGTON, Nov. 27.—The federal government lost in the supreme court of the United States today a suit to recover from the Oregon Lumber company the value of public lands now held by the company. ### TIERNAN RECONCILIATION IS QUICKLY OVER, CLAIM

SOUTH BEND, Ind., Nov. 27.—The reconciliation of Professor John P. Tiernan and his wife blew up with a bang today when Mrs. Augusta Tiernan began to suspect that the professor had returned from affinity land, where he married another, only to avoid the pressure of a charge of bigamy. ### NANCY JORDAN AND CHILD ARE ADMITTED TO U. S.

WASHINGTON, Nov. 27.—The admission of Nancy Jordan, unwedded mother, and her 3-year-old child, to the United States was ordered today by the immigration bureau of the department of labor. Miss Jordan will not be permitted to leave Ellis Island, however, until she has deposited bonds of \$500 each for herself and the child. The surety bond for the child will require that it must attend school after it becomes old enough. The case reached the department this afternoon after the special board of inquiry at New York had today refused admittance of the young English woman. An immediate appeal was made by telegram to the department of labor and the Ellis Island board was over-ruled.

### CLARA PHILLIPS GETS FROM TEN YEARS TO LIFE

LOS ANGELES, Nov. 27.—Mrs. Clara Phillips, convicted of having beaten Mrs. Alberta Meadows to death with a hammer, was sentenced today to San Quentin penitentiary for from ten years to life, by Presiding Superior Judge McCormick, who sat on the bench for Judge Houser who is ill. Mrs. Phillips accepted the sentence and answered the customary questions asked by the judge with the same unruffled appearance she has maintained since her arrest and throughout the trial. She was represented by Public Defender Robert Scott, who appeared for Defense Attorney Bert Herrington, who is also confined to his home because of illness. Scott submitted the request for a new trial without argument. Judge McCormick granted Mrs. Phillips a ten days' stay of execution and Scott gave notice of appeal of the case to the higher courts. Within the next ten days Defense Attorney Herrington will either file an appeal of the case or announce the abandonment of the appeal of which notice was given today.

### EMPLOYMENT CONDITIONS BETTER THAN NORMAL

SAN FRANCISCO, Nov. 27.—With employment conditions better than normal, no slackening of industrial activity and stores reporting the best October in their history, business conditions generally on the Pacific coast are bright as the winter season is ushered in, according to the monthly report of John Perrin, federal reserve agent, made public today. Reporting department stores in this district enjoyed the best October trade in their history during the past month, the value of sales of thirty-two stores was 10.3 per cent greater than in October, 1921. "There has been no slackening of industrial activity despite the approach of the winter season and the shortage of freight cars in many sections," the report said. "Production of lumber during October was at record levels. Shipments were curtailed by the car shortage and mills were reluctant to accept new orders, the prompt shipment of which could not be promised. Consumption of the principal mineral products of the district continues to exceed present output and stocks have been or are being reduced to normal levels. Metal prices have remained steady or have advanced, the market for lead and zinc being particularly active. Production of petroleum in California at 432,885 barrels per day increased 6.4 per cent over the previous record month of September, 1922, chiefly due to flush output in the newer fields at Santa Fe Springs and Huntington Beach. Current consumption also increased but was less than production, and storage stocks rose to 57,569,832 barrels on November 1, 1922, compared with 33,116,456 barrels held on November 1, 1921. The number of building permits issued in twenty principal cities during October, 1922, was 12,254, a record for this district and an increase of 7 per cent over the number issued in October, 1921. Employment conditions at the beginning of the winter season are reported to be better than normal. The usual seasonal decrease in the demand for workers in outdoor activities has been largely offset by an increased demand in other industries. Prices of nearly all of the more important agricultural products rose during October and, despite the car shortage, the movement of the district's crops to market was accelerated."

## EDUCATORS HOME FROM CONVENTION AT OAKLAND

Number of Matters Come  
Before Meeting of State  
School Principals

Several ideas applicable to the school system of Glendale were obtained last week by George U. Moyle, principal of Glendale Union High school, and Richardson D. White, superintendent of the grammar school system, who attended the annual convention of school superintendents at Oakland.

"The thing that impressed me the most at the convention was the practicability of the program," remarked Mr. White this morning. "We had very little oratory and the program confined itself to practical discussion along the lines of school work."

Following a talk by A. P. Leach, president of the Oakland Boy Scout Council, a committee was appointed by Will C. Wood, state superintendent of education, to formulate a plan for co-operation between the school system and the boy scout movement.

Character Building  
A number of educators present endorsed the character building effect of the boy scout program and expressed a hope that the appointment of this committee might result eventually in actual recognition and financial support for the boy scout movement as a part of the regular school system.

To revise school district boundaries so that one school board would have jurisdiction not only over the high school, but also over all the grammar schools in that district was the subject of considerable discussion. "The general sentiment was that reorganization on a more economical and efficient basis than at present is desirable," remarked Mr. White. "The committee on legislation was instructed to work towards some plan. This problem seems to fit directly into the situation that confronts us here."

Glendale Takes Lead  
Of the thirty-six charter cities in the state, Glendale last term showed the highest increase in average daily attendance, according to a report submitted to the convention by Will C. Wood.

Cities like Huntington Park, South Pasadena and Venice, which have no charter, were not included.

Development of the course of study was discussed and the prevailing opinion seemed to be that teachers should be given an important voice in this subject. How best to encourage teachers to continue their self-development after they receive their certificates was another subject brought up, to encourage them to participate in the university extension courses. To give credit in the salary schedule for attendance at summer school was recommended by several.

The single salary schedule was discussed also. This provides for a uniform wage for all teachers having the same professional training and experience regardless of the grade taught. This plan seemed to be favored by most of those present, but some of the delegates seemed to feel that the financial aspects of the problem would need considerable study.

### Local Players Plan to Hold Reception

Plans are being completed by the Glendale Community Service players for the reception they are to hold Friday night, December 1, from 8 o'clock to 10 o'clock at the home of the director, Mrs. Nanno Woods at 122 West Milford street.

The feature of the affair will be a program given by the Glendale players.

## Pacific-Southwest Review

By H. NELSON, Manager Glendale Avenue Branch Pacific-Southwest Trust and Savings Bank

HERMAN NELSON

The following is the first of a series of weekly letters from the Washington (D. C.) correspondent of The First National Bank of Los Angeles, the Pacific Southwest Trust & Savings Bank and the First Securities company. The purpose of this letter is to afford the people of this district information regarding the developments in national governmental circles and in eastern points that will have a direct effect upon the Pacific-Southwest. These letters will be published as a Pacific-Southwest Review each week.

WASHINGTON, D. C.—Evidence so concrete as to leave no room for doubt that an era of great prosperity is at hand is being recorded through various governmental channels. Prosperity is not only visible in the future but it is here and as it was brought about normally it is expected to remain for an indefinite period.

Unemployment as it existed one and two years ago is virtually unknown today. Industry is short of help, according to advices reaching the Department of Labor. For a week a Washington builder has been using a two column display advertisement four inches deep in the morning newspapers calling for 25 brick-layers at \$12 a day and he hasn't hired enough men yet.

The furniture industry is two months behind in its orders at some factories and nearly all of the larger plants are at least two weeks behind although operating at maximum capacity. The automobile industry is humming with the greatest activity in its history. New York jobbers and manufacturers are prepared for the great-

est season they have known. The Christmas sales this year are confidently expected to smash all previous records. These facts, together with other evidences too plentiful to detail, show the unmistakable trend of the times.

Conditions throughout the Pacific-Southwest are reflected by conditions in Los Angeles, since that city is the industrial and commercial capital of the district. James Woods, the San Francisco and New York hotel man who will soon manage a new hotel in Los Angeles, surprised the New York natives the other day by showing them some figures from the Department of Labor indicating that the building activities of Los Angeles this year exceed the combined activities of New York, Chicago and San Francisco. He then shot another puzzle at the real estate group he was counseling with by asserting that the ground rental on the most expensive corner of New York City was less than the rental on the most expensive corner of Los Angeles. He knows because he has investigated.

Representatives of Eastern manufacturers of newspaper plant machinery have confidentially advised friends that a new string of newspapers is about to invade the Pacific Coast and establish papers in Los Angeles, San Francisco, Portland, Seattle, and Tacoma. The invasion of all five cities may not be simultaneous but negotiations for machinery are going on now that will eventually bring about the chain. Each paper will be of the tabloid variety which has taken the east by storm and which has caused more than one publisher of the so-called "legitimate" papers to shake his head doubtfully. These papers adopt a policy of "picturizing" the news with short items. They are supposed to cover the same field as their larger rivals but in condensed style.

## 'WHAT IS MAN?' TEXT OF SERMON

Rev. Calderwood Discusses Question at I. O. O. F. Hall Yesterday

Rev. C. M. Calderwood, pastor of the Congregational church, addressed his congregation yesterday morning at the I. O. O. F. hall on the theme, "What Is Man." There seems to be in man two natures struggling for the mastery, he declared.

"There is the flesh lust against the spirit and the spirit against the flesh. We find in man everything that is mean, low, contemptible, vile, devilish and disgusting. A snake may poison one man but men will poison 10,000 with impure thoughts, books, ideas, and will make a gas that poisoned hundreds of thousands in Europe. A cat will torture a mouse but man has been torturing other men for thousands of years.

"A tiger will slay its prey but men have invented instruments of murder and as a result of man-made war machines 30,000,000 of God's people have been slain in the last eight years. Animals in the jungle sometimes destroy things but men do not hesitate to destroy cities, lay waste a continent, level cathedrals and reduce universities to crumbling dust.

Something Noble in Man  
"How ferociously animals occasionally fight! But how cleverly and with what ingenuity man fights, not animals, but other men made in the image of God. Man prostitutes his loves, he dims his vision, he weakens his will, he beclouds his hopes, he atrophies his powers and stunts his soul.

"But there is something else in man. There is everything noble, beautiful, fine, glorious, magnificent and divine in man. Millions are going about the world doing good in the same spirit as did the Son of Man. Men are loving others with a divine love and a God-like passion. Men have made and are making supreme sacrifices. Many are laying down their lives for the sake of the world. There is skill, ingenuity, love, the spirit of service and sacrifice, heroism, loyalty and devotion in men. There is good in all of us. Jesus found it so.

"Man has great possibilities, capacities and potentialities. It is here that religion steps in shows man what he may be and may do. The religion of Jesus discovers these to man and shows him how to use them. Without religion man may do his worst, but with religion his best is developed."

## GOLDEN RULE IS EVERY DAY GUIDE

Declaration of Christ Is for All to Follow at All Times, Claim

"The Golden Rule was the great declaration of Christ as a guide for every day living," Rev. Philip Y. Kemp stated yesterday morning at St. Mark's Episcopal church. He said:

"The Christian is a citizen of the kingdom that is dawning. He builds the kingdom of love and justice. He merely sees more of law and justice. He merely sees more clearly than his brother that what we need is more of the spirit of divine generosity in the treatment of our fellows.

"Take the initiative in the life of goodness. Don't ask your neighbor to do anything, suffer anything, bear anything which you would not yourself be willing to suffer and to do. This must be the path of Christian progress.

Quotes St. John  
"As St. John says, the law was given by Moses but grace and truth came by Jesus Christ. Make your lives positive forces for goodness not merely negative brakes upon the ill directed emotions of sinful men.

"Life to be real must be set upon the plans of the ever progressive realization of high ideals. We always wish more than we can claim by legal right. Justice says that you get just what is right but Jesus says that you get what you would wish men to give you. Treat your fellow man as you would wish him to treat you in return. This is the law of generosity."

## PREPARE TO MEET GOD, SAYS DUNLOP

Packed Church Hears Sermon at Tropico Presbyterian Church Last Night

"Heaven is a prepared place for a prepared people, while hell is a prepared place for an unprepared people," said Dr. H. P. Dunlop, last night at the Tropico Presbyterian church. A packed house greeted the speaker at the stirring revival he is now conducting. Rev. Brink of the Methodist church and his congregation united in the evening service which added much to the interest of the meeting.

"Amos 4:12, Prepare to Meet Thy God, is my text," said Dr. Dunlop, "and while this old Bible is a love letter, for God so loved the world, etc., yet it is also a 'warning notice' for it also says, 'Our God is a consuming fire.' Death is imminent. At best our

### Irish Soldiers Die In Violent Battle

DUBLIN, Nov. 27.—Five free state soldiers were killed in a violent battle with republican irregulars at Newport today. The irregulars' casualties were said to be heavy. There were a few minor outbreaks in Dublin over the week-end.

Life is a most precarious thing and death comes when least expected. I was just across the alley in Chicago when the great Iroquois theatre burned and before you could realize it 600 persons were dashed into eternity.

### God Warns You

"Yes, prepare to meet thy God for God warns you. It was in an accident, in a sickness, by a death or by the preacher's words from the Bible that God warned you, and you are today without excuse. The evangelist gave a thrilling example of a man warned not to touch an electric switch, but he did and was instantly electrocuted. God warns you, Christ can prepare you.

"This is the part of the sermon I like for it speaks of life, forgiveness, hope and heaven. Jesus says, 'I am the way, the truth, the life; he that followeth me shall have the light of life.' Each night this week at 7:30 o'clock revival will be held.

### 'GORGE' DUE AT BROADWAY INN

Carterer Herzel Promises Surprise at Big Dinner Thanksgiving

Thanksgiving may have originated with the Pilgrims, but it takes the epicures of the Twentieth Century to really enjoy the "Royal Gorge."

Such is the opinion of William Herzel, caterer of the Broadway Inn.

Now that the turkey has become the national bird, no longer is it necessary for the head of the house to take his trusty, muzzle-loading, powder-eating blunderbuss and sneak out into the woods for half a day and come back with a nasty cold, a baker's dozen of arrows perforated through his peaked hat, and one scrawny wild buzzard.

### Returns \$1.50 Ring; Hubby Asks Divorce

AKRON, O.—When her husband left her Mrs. Nina Pettit, of Erie, Pa., sent his wedding ring back to him because she couldn't raise \$1.50 on it at a pawnshop. She sent a letter along advising him to save \$1.50 if ever he needed another wedding ring.

This is the burden of the complaint in Alfred E. Pettit's divorce petition filed in Akron.

They will enjoy their dinner at the Broadway Inn.

Surprise Menu Prepared  
The menu, which he has prepared, is one to delight anyone. It starts out with oyster cocktails and gradually works around to either roast Vermont turkey, filet mignon from the sunny side of a bull, or sucking pig. There will be pumpkin, cranberry and mince pie, plum pudding with old-fashioned sauce and many other items to tickle the palate.

A great many arrangements have been made for Thanksgiving service already, according to Mr. Herzel, and it is absolutely necessary that all those wishing to make reservations should do so before tomorrow.

Among those who have made Thanksgiving reservations at the Broadway Inn are a number of people from Hollywood.

### Transfers of Service

Transfer of light and water service has been requested by the following residents and orders are now on file in the public service department at the city hall: C. E. Murphy, 223 1/2 East Maple street; Carlisle Bros., 110 West Broadway, 312 East Harvard street; R. C. Solomon, 212 West California avenue, 340 North Delaware street, Eagle Rock; Dan Hightower, 814 East Broadway, 320 West Eulalia street.

Installation of meters has been requested by the following: Mrs. C. Haber, 320 Hawthorne street; J. L. Criswell, 715 North Jackson street; W. J. Barnes, 634 West Wilson avenue; E. B. Doner, 1945 Vassar street.

## Uncle Wiggily Bedtime Stories BY HOWARD R. GARIS

UNCLE WIGGILY'S CHOCOLATE CAKE

"Tra, la, la," sang Nurse Jane Fuzzy Wuzzy in the kitchen stump bungalow one morning. "Tra, la, la!"

"I am going out for a little while, Miss Fuzzy Wuzzy, to look for an adventure," called Uncle Wiggily, as he put on his pink twinkling nose and looked at his tail silk hat—oh, listen to me, would you? I mean he put on his hat and looked at his nose. "I am going out, Nurse Jane," he called.

"Tra, la, la! Tra, la, la!" sang the muskrat lady. "Dear me! Nurse Jane is so busy this morning she pays no attention to me," thought Uncle Wiggily, as he stepped to the kitchen door. "I shall have to speak more loudly." Opening the door, and looking into the kitchen, Mr. Longears saw his muskrat lady housekeeper beating up some eggs in one dish, while in another dish on the table was some sweet, brown, melted chocolate.

"I am going out, if you please, Nurse Jane," said Uncle Wiggily. "I am going out to look for an adventure."

"Hop along, Mr. Longears! Please don't bother me!" cried Nurse Jane. "Tra, la, la! I am baking a chocolate cake for Thanksgiving and it is very important. Hop along and have your adventure. The chocolate cake is an adventure enough for me."

"Hum!" said Uncle Wiggily to himself. "I guess I had better not bother Miss Fuzzy Wuzzy this morning. It will be better to wait until after she has baked the chocolate cake."

So Uncle Wiggily hopped off by himself to have an adventure, and his muskrat lady housekeeper busied herself with the dishes and pans in the kitchen.

Adventures were scarce that day—at least, the only one Uncle Wiggily had was with Aunt Lettie, the goat lady. Aunt Lettie tried to crawl under a wire fence and one of her horns caught fast. The poor Aunt Lettie was held, not being able to get loose, and she was getting so nervous that she thought she would have to drink ten cups of tea for supper, when along came Uncle Wiggily.

"Oh, my dear Aunt Lettie, how sad!" cried the bunny gentleman. "But I'll get you loose," and he did, and very thankful the goat lady was to him.

"But that wasn't much of an adventure," thought Mr. Longears, as he hopped on over the fields and through the woods.

Only adventure he was going to have and soon he turned back toward his hollow stump bungalow.

"Here I am, Nurse Jane!" he called, as he entered the bungalow. But no muskrat lady answered him, and he heard no rattling and banging of the pots and pans in the kitchen.

"Nurse Jane must have gone out," thought the bunny rabbit. "Perhaps she finished making the chocolate cake and took it over to Grandfather Goosey Gander, though I hoped it was for our Thanksgiving. Yes, Nurse Jane must have gone out, or else—"

"Nurse Jane must have gone out, or else—"

But he need not have been afraid. For, when he went out in the kitchen he saw everything in order. On the table was the cake nicely baked, and near it

Uncle Wiggily looked in the glass.

me," and out went the Fox.

"Well, of all things! Why in the world did he do that?" exclaimed Uncle Wiggily to himself.

"Didn't he know me, I wonder? What can have happened to change me?" Uncle Wiggily looked in the glass, and no wonder the Fox didn't know him! For the bunny's face was covered with chocolate—brown, sweet chocolate—and he looked like a chocolate candy rabbit.

"Hat! Hat!" laughed Uncle Wiggily, as he looked at the cake. "It's a good thing I ate those chocolate drippings!" And Nurse Jane said the same thing when she came home. And she was very thankful to the bunny for chocolateing the cake. So everything ended happily, you see.

And if the loaf of bread doesn't go to sleep in the pie tin and forget to call the orange to breakfast, I'll tell you next about Uncle Wiggily and the turkey.

## Daily NewsLetter

General News and Gossip from Staff  
Writers at Home and Abroad.

TODAY—Thomas Meloy, Peking correspondent, relates the experiences of a woman who, alone, is making a thousand-mile trip through the frozen fastnesses of Northern Mongolia and Siberia.

TOMORROW—David M. Church, of London, speculating on the servant question in the British capital, concludes that male servants are abject failures.

By THOMAS MELOY  
For International News Service.  
PEKING, Nov. 27.—A woman, alone, making her way north through frozen Mongolia, 1,000 miles to Urga and Siberia, via auto, mule cart and camel; that is the new record which Mrs. Marguerite Harrison is establishing. She left Peking October 11 and, barring accidents, should reach the Trans-Siberian line in December. Incidentally, Roy Chapman Andrews, the American explorer, has just returned from these regions, where he said it was too cold and too stormy for further work.

Captured by "White" soldiers, shadowed by Japanese agents, accused of being an instrument of the Soviet, Mrs. Harrison has created a great sensation in the Far East by her whirlwind trip through Japan, Manchuria, China and Mongolia, en route for Siberia. On a contract to write two articles a month for the International Magazine, she has managed to interview nearly every notable except the "Boy" Emperor and the Mikado.

The great "War Lord" of Manchuria, Chang Tso-lin, seemed to take quite a fancy to her and stopped his work of army reorganization long enough to give several interviews. In the course of these he admitted the purchase of arms and ammunition from the Russians and Vladivostok. He also let it be inferred that any agreement signed without his consent would be opposed by him, morally and to the extent of his hundred odd thousand newly equipped troops.

When Mrs. Harrison arrived in Peking after many delays she was already well known. Society hailed her as an enigma and diplomats, officials and Russians, red and white, undertook to solve it with endless hospitality.

The accusations made against her in truth were all the more interesting because their author, Mrs. Stan Baker Harding, is the sister-in-law of the Secretary of the British Legation at Peking. Such information as could be obtained from legation circles was not favorable to Mrs. Harding. When Mrs. Harrison arrived she refused entirely to discuss the matter.

When in Japan she insisted on paying a visit to the much disputed territory on the northern half of Saghalien Island, this being the bone of contention between Moscow and Tokio. She also crossed to the mainland to foreign journalist to secure directly the details of the late massacre. Fortunately she spoke Russian while her Japanese shadows did not. In the massacre

#### FINE—FOR THE FISH

A Massachusetts woman is spending \$5000 building a cold weather club house for her three goldfish, which have been accustomed to the comparative hardship of a \$2500 fountain during the summer. A thermostatic steam heating device will keep "Winnie," "Minnie" and "Maudie" warm, but not too warm. There must be quite a few people in Massachusetts who would like to be goldfish this winter.

## The MUCKER

by Edgar Rice Burroughs  
Copyright 1921 by Edgar Rice Burroughs

The men did as he bid and a moment later he was leading them, across the room, filled with sleeping men, women, children, and domestic animals. At the far side stood a rack filled with long swords. Byrne removed two with the faintest suspicion of a noise. He handed one to each of his companions, cautioning them to silence with a gesture.

But neither Anthony Harding nor Billy Mallory had had second-story experience, and the former struck his weapon accidentally against the door frame with a resounding clatter that brought half the inmates of the room, wide-eyed, to sitting postures. The sight that met the natives' eyes had them on their feet, yelling like madmen, and dashing toward their escaping prisoners, in an instant.

"Quick!" shouted Billy Byrne. "Follow me!"

Down the village street the three men ran, but the shouts of the natives had brought armed men to every door with a celerity that was uncanny, and in another moment the fugitives found themselves surrounded by a pack of howling warriors who cut at them with long swords from every side, blocking their retreat and hemming them in in every direction.

Byrne called to his companions to close in, back to back, and thus, the gangster in advance, the three slowly fought their way toward the end of the narrow street and the jungle beyond. The mucker fought with his long sword in one hand and Thier's revolver in the other—hewing a way toward freedom for the two men whom he knew would take his love from him.

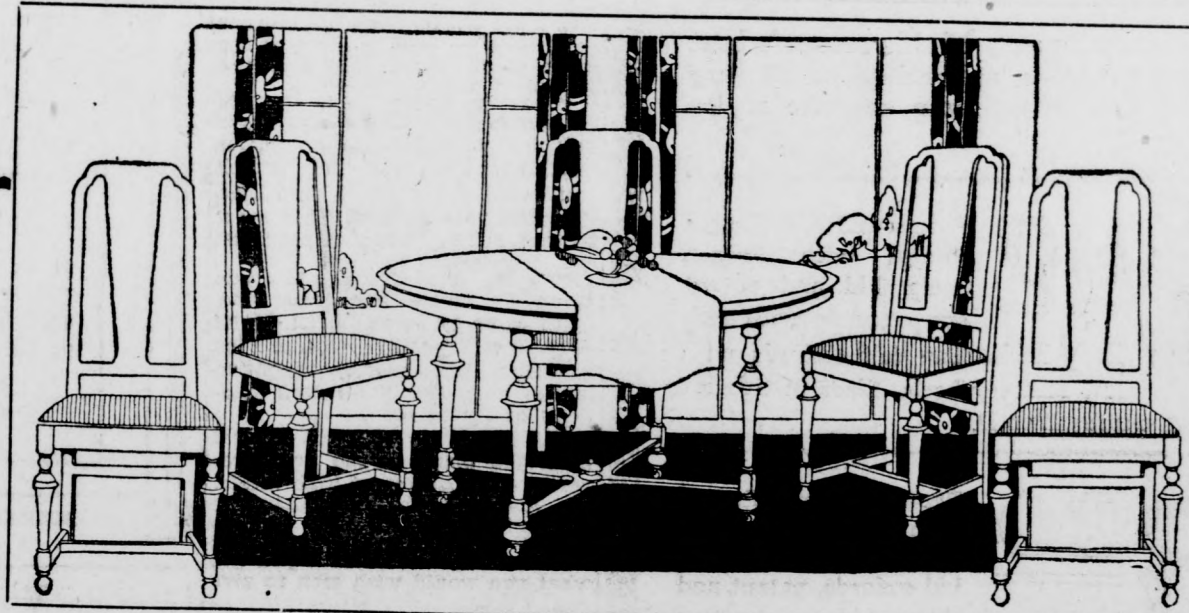

Beneath the brilliant tropic moon that lighted the scene almost brilliantly as might the sun himself the battle waged, and though the odds were painfully uneven, the white men moved steadily, though slowly, toward the jungle. It was evident that the natives feared the giant white who led the three. Anthony Harding, familiar with Japanese, could translate sufficient of their jargon to be sure of that, had not the respectful distance most of them kept from Byrne been ample proof.

Out of the village street they came at last into the clearing. The warriors danced about them, yelling threats and taunts the while they made occasional dashes to close quarters, that they might deliver a swift sword cut and retreat again before the great white devil could get them with the sword that had been Ota Yotomoto's, or the strange fire stick that spoke in such a terrifying voice.

Fifty feet from the jungle Mallory went down with a spear through the calf of his leg. Byrne saw him fall, and dropping back lifted the man to his feet, supporting him with one arm as the two backed in front of the on-pressing natives.

The spears were flying thick and fast now, for the samurai all were upon the same side of the enemy and there was no danger of injuring one of their own numbers with their flying weapons as

### COMMON MOTOR AND GENERATOR TROUBLES

Besides those of a mechanical nature there may be electrical troubles, some requiring expert attention, others easily found and cured if you know where to look for the trouble. The most common electrical faults are those caused by loose, wrong or missing connections, and dirt. Connections that allow current to pass by a piece of apparatus, instead of flowing through it, are called "short circuits" (usually accidental). They are a common source of trouble.

A systematic way to hunt troubles is as follows:

1. Make or find a circuit diagram, unless thoroughly familiar with the connections and positive they are right. In drawing diagram follow each branch of the circuit from its source (positive terminal of battery or generator armature) completely around (through the negative terminal) to the place of beginning. Remember no current will flow in a circuit or in any part of a circuit unless there is a difference of potential in it.
2. Trace the wiring according to the diagram.
3. While tracing see that—
  - (a) Fuses are good if any are in circuit.
  - (b) Connections are clean and good.
  - (c) Contact is not prevented by insulating caps of binding screws or insulation of wire.
  - (d) Wires do not touch, making short circuits.
  - (e) There are no breaks in the wires inside the insulation. This occasionally happens with old lamp cord. The broken piece is very limber, and can be pulled in two more readily than a sound piece.
  - (f) Look for defects in the apparatus itself.

### MOTOR DRIVEN CHOPPER FOR C. W. TUBE TRANSMITTERS

Experience in the use of audio frequency buzzers to modulate the output of a tube set to produce damped wave trains has proved that this method is not entirely satisfactory, principally for the reason that the operation of the buzzer is not constant, necessitating frequent adjustments,

also requiring the additional expense of vacuum tubes. The interrupter wheel is built with 34 conducting and 34 insulating segments, making 34 interruptions per revolution. The insulating segments are molded in a single piece, eliminating the possibility of these segments becoming displaced.

### WOMEN VERSUS WOMEN

"Women won't vote for women," "Women won't patronize women doctors," "Women won't take their cases to women lawyers," "And this in the year 1922!" "This disgraceful situation in which women find themselves today is their own fault," "They will never advance until they refuse longer to be a subject class and combine in a solid women's party."

One can understand her indignation both over the defeat and over the fact that the women voters would not vote for women.

Saw Betrayal.

And I also agree with her in her exasperation at the fact that women hesitate to patronize women doctors because they are women, or go to women lawyers because they are women.

Nothing makes me crosser than to hear (as I did recently) a "hang-back woman" say to another woman: "You don't mean to say you are going to have Dr. M. (for her accouchement); I don't see you dare trust a woman, when you know you are liable to have trouble."

Her One Fault.

The Dr. M. in question is a very brilliant doctor, with just as many cases and as much success to her credit as the man doctor the other woman favors. The only fault to be found with her was that she was a woman. And for another woman to turn from her

on that account, alone, is surely maddening to women, who have faith in their sex.

But, on the other hand, I don't agree that women should go to women doctors because they are women, or to women lawyers because they are women, or deal with a firm because its members are women.

I dislike to see any alignment of women against men. Both men and women ought to stand or fall by their abilities as individuals, not by their status as the member of one or the other sex.

Just At Present.

Of course, in these days when women are trying so hard to get a foothold in business, and the professions, and government, if other things were equal, one would be apt to give an individual a hand up because she was a woman and had been the underdog in these things so long.

It doesn't seem possible to me, for purely biological reasons, that women ever will, as a whole, have the same footing in the world of affairs as men. They have got to bear and bring up the children, if the race is to continue, and this will always absorb a large share of the best energy of the majority of the feminine sex. But I think as the years go by there will be a great many individual women who, for one reason or another, are not the child bearers, and who will rank with men in business and the professions. And I would like to see these women placed by men and women alike on a perfectly equal footing with men, and judged only by capacity and not by sex.

## BEAUTY CHATS

### THE EGG AS BEAUTIFIER

Even when eggs are expensive they are cheap as a shampoo. It is impossible to over-estimate their value in making the hair healthier and more beautiful. The yolk of the egg contains iron and sulphur, both natural foods for the scalp; the white is a mild alkali which mingles with the oils exuded from the pores of the scalp forming a mixture something like soap. It is this chemical action which makes the hair wash so much more easily as soon as you begin to use soap and water.

Some people advocate mixing a beaten egg with an ounce of water. Personally, I think it is better to use the well beaten egg by itself. If the hair is very long and thick you might need two eggs, but as it is only necessary to cover the scalp and not all the hair, I think that one will do.

Beat up the egg thoroughly and rub it well into the scalp with the tips of the fingers. The rubbing is essential as it works the egg thoroughly over the surface of the skin.

Now let the egg dry for fifteen minutes or more; as it dries it absorbs all the dandruff and dirt and sticky oil which has collected on the scalp, and when it is washed off it all comes together after one or two soappings. In any ordinary shampoo the head should be soaped from three to five times but with an egg shampoo only two or three times. It will not need so much rinsing either, though a great many changes of water are always necessary to take all soap and grease from the scalp. The result will be life-like glossy hair.

Vera—The preparations you mention are always dyes although they have some henna added to them. Henna will only produce the Titian shades, so all other colors are dyes, with the henna having very little value beyond the use of the name. The only thing you can do now is to wait for nature to restore your hair to its

Egg shampoos make the hair glossy

to cut off as much of the hair as possible as that eliminates much of the dried hair and hastens the recovery.

### THE MILK AND POTATO REDUCING DIET

In a recent magazine article a beautiful actress tells how she lost forty pounds in weight. The reporter describes her as follows: "She has regained the svelte slenderness of girlhood. There is a new light in her starry eyes. Her voice rings with a new vibrancy."

A lot of you can answer the same question from our favorite reduction course (send a stamped, self-addressed envelope and four cents in stamps if you haven't it) but we want to keep an open mind, so let's look a bit into this lovely lady's methods. This is what she says of herself: "I was unconsciously settling down into a sort of comfortable stagnation when suddenly I realized that something was vaguely wrong. . . . Don't laugh! It was a really serious warning getting fat! I realized I was really getting fat! I felt very sluggish, heavy, stupid. But worst of all I realized I was becoming fat-headed. . . . I simply could not let myself become fat-headed. . . . There is no place for a fat-headed woman in my profession above all others. You cannot let yourself slump and hold your place on the stage."

We know you cannot let yourself slump and hold yourself any more creditably. Well, this is the way she lost her forty pounds:

She had a glass of hot water to start the day. After that came a glass of hot milk sipped slowly. Luncheon at 2 o'clock consisted of another glass of milk, hot or cold; and dinner consisted of a baked potato and a glass or two of milk sipped slowly.

Now that is really a very good reducing regime, because milk is more nearly a perfect food than anything we have. It is full of all sorts of vitamins and essential

salts—but low in iron. And potatoes also have a goodly amount of anti-neuritic and anti-scurbutic vitamins. They have a large proportion of the potassium salts which are lacking in some other foods and which are very necessary. However, they are also low in iron.

Now you, my followers, know exactly why this famous actress lost on this menu—but let us see what she says caused the reduction. I shall quote her again: "You see the theory is that a yeast is formed by the combination of milk and potato and the natural digestive juices. This combination must not be changed if results are to be secured. Not even an apple may be eaten, because that introduces new elements into the combination that destroys the yeast; and the yeast is what does the work of eliminating the superfluous fat."

Now we know she has been thrown way off in her reasoning. She did not reduce on account of any magic production of yeast, but because with just three glasses of milk (160 C's each) and the moderate sized potato (100 C's) totaling only 580 C's a day, she was getting from 1500 to 2000 C's a day less than she needed for her activities, and her own fat supplied the deficiency. She might have eaten an apple if she had wanted to and it would not have hurt the combination in the least. A big dish of spinach, for its iron, (25 C's) would have been a better addition.

The actress says that she lost forty pounds in about six weeks. That reduction is too rapid, I believe, although she says she experienced no ill effects from it. So if you would like to try the milk and potato diet for reducing you have my permission. But for goodness sake understand why you get results.

## MENTAL AILMENTS A BIG HANDICAP

Weekly Health Talk No. 9  
By Drs. EBLE & EBLE, Ds. C.

Mental ailments are a big handicap. Frequently a child is dull in school for no apparent cause that the parents can blame. Other children in the same family may be bright and quick, but this one is slow and the mental processes seem to halt and stutter.

Uncle Ben says: "Hubbard says do your work and be a hero, and a right there a lot of folks give up hopes of being a hero."

When there are spinal injuries or displacements of spinal vertebrae at the apex of the spinal column this condition of dullness is generally found. In a prize fight, the knockout blow on the point of the jaw produces unconsciousness. In a wrestling match where the head hold is used, the same thing results. Of course where there is an injury that results in a permanent displacement of this apex joint, the dullness is permanent in character, or at least remains until the proper chiropractic spinal adjustment can be made.

"In my wrestling with DeBolt on January 24, 1922, I was injured in the first round by the severity of a series of headlocks used by my antagonist. I had to be carried to my dressing room and would not have been able to continue but for the efficient chiropractor who gave me adjustments so that I was able to re-enter the ring in the allotted ten minutes. ## It's A Fact

### WORLD WHEAT SITUATION

The commerce department's foodstuffs division in a world wheat survey says that according to the latest available estimates on wheat production, the principal importing countries have produced less wheat this year than last by about 245,000,000 bushels. These same countries imported for the crop year ending August 1, 1922, 647,000,000 bushels. If we add the 245,000,000 bushels shortage, this gives a total of 892,000,000 bushels required to equal last year's average wheat consumption in the importing countries. It is, of course, recognized that some European countries are probably living on a lower standard than last year, and are going to conserve wheat consumption not only through milling regulations but also through the substitution of other foodstuffs, such as potatoes. The potato crop is larger this year and generally speaking, can be

and is substituted for bread in times of stress.

The exporting countries produced about 213,000,000 bushels more this year than last, which, added to the 647,000,000 bushels they exported, would indicate an average surplus of 860,000,000 bushels based on last year's crop. For the next four months the wheat and rye available for the export trade should be found in North America. If Europe's combined wheat and rye shortage of about 200,000,000 bushels could be met, it would make America a strong market, and it may be said from now on the breadstuffs market will depend entirely on the economic conditions in European countries and their ability to pay cash for grain.

Add one and one-half cups milk, one-half teaspoon salt, and one-fourth teaspoon paprika, cook in double boiler, stirring constantly, until thick and smooth. Mix well, add three-fourths cup chopped nut meats and three-fourths cup seeded raisins, at the same time adding one teaspoon vanilla extract, mixing all well together. ## Book Reviews

Certainly Marie Conway Oelmer is not going to be held down to one type. Simply because "Slippery McGee" was a literary hit, Miss Oelmer apparently does not intend to confine her literary attentions to burglars of the butterfly type.

In "Two Shall Be Born," the hero is the son of a millionaire, and royalty and noble gypsy blood and a secret Polish brotherhood all move swiftly and darkly through the story to a rousing climax. The novel is essentially one of entertainment, and abundant humor emerges from between the covers at pleasantly frequent intervals.

Miss Oelmer has a knack for plot; she can orchestrate any number of varied temperaments into a consistent and interesting story, and her instinct for dramatic situations is eternally alert. "Two Shall Be Born" should provide an agreeable stop-over for many an otherwise dull evening.

The Three Musketeers, By Alexander Dumas. Translated by William Robson. With 250 illustrations by Maurice Leloir, engraved on wood by J. Huyot.

This is the authorized Leloir edition in one volume, containing the full set of pictures made by Leloir, and engraved on wood by Huyot. All the movement, the dashing exuberance, the diversity of characterization, the swagger and the vitality found in "The Three Musketeers" are given satisfying representation in these illustrations.

As for the book itself, both boys and girls like it, as well or even better than their parents do. Undoubtedly the cinema presentation of it by Douglas Fairbanks has added greatly to its popularity among young people. It is one of those books that, once an active-minded imaginative youngster has got well into it, is warranted to hold him entranced to the end.

The optimist cannot see a devil without horns nor a fool unless he jangles his bells; the pessimist provides these appendages for all.

## YALE'S FOOTBALL PROBLEM ITS OWN

Tad Jones Not to Blame  
for Team's Showing, Is  
Claim of Writer

By DAVIS J. WALSH.  
For International News Service.  
NEW YORK, Nov. 27.—Probably as fine a football team in sheer physical ability and man power as there is in the land has just finished a season in which it lost three of the four games it considers worth winning. Furthermore, it got only a tie in the fourth and in the entire lot scored just one touchdown and one field goal.

That is not an indictment of any one man or set of men. It is indictment of Yale football, which year in and year out can produce more material and less victories than any similar aggregation in America.

Before proceeding further, we wish to make ourselves thoroughly understood on this point, to wit: That Yale's football problem is Yale's own. The solution must come from within and suggestions at this time are in bad taste.

What's the matter? Members of the alumni we talked with after the Harvard defeat on Saturday are all for having "Tad" Jones sent on his way. They point out with mature judgment that he would go as head coach because Yale has not only failed to beat Harvard for the fourth time in succession but has crossed the Crimson goal only a few times since 1907.

The figures are right, the reasoning wrong. One might just as reasonably blame Tad Jones for the Johnstown flood as to hold him accountable for a succession of defeats dating back years before he took charge of the team. The culprit is Yale football itself and the charge against it is lack of initiative horse sense.

## Willard Willing to Box Floyd Johnson

BUFFALO, N. Y., Nov. 27.—Charles Murray, local boxing promoter, is in receipt of a telegram from Jess Willard indicating his willingness to meet Floyd Johnson, the Iowa heavyweight, in a bout here late in January or February. Johnson, who has scored seven consecutive knockouts in New York, has already been signed to a blanket contract by Murray, calling for him to meet Bill Brennan, Harry Williams or Willard. The latter's wire said:

"I want to fight Dempsey again, because I know I can beat him. I cannot make definite arrangements with you for a fight with Johnson until after I talk to Kearns."

Willard then went on to say that he was in fine condition and "will surprise a lot of wise guys."

## Prof. Tiernan Back With His First Wife

SOUTH BEND, Ind., Nov. 27.—Professor John P. Tiernan today was to begin action in South Bend that he hopes will untangle the legal web entangling himself and his first wife.

His first move was to be in Judge Chester Montgomery's court room where he was to request that his cross suit for divorce, which was granted Friday and then voided Saturday, be dismissed.

Then, it was said, Professor Tiernan will attempt to annul his marriage of Saturday to Mrs. Blanche Brimmer of Aredale, Iowa, which was solemnized at Crown Point, Ind.

If both of his requests are granted, Professor Tiernan in the near future, possibly by tonight, will be possessed of only one wife—Mrs. Augusta Tiernan, whose sensational paternity charges against Harry Poulin, South Bend haberdasher, first brought the amazing domestic tangle before the public.

His second wife was left in Chicago by the professor who told her to clear up the legality of her marriage to him, Tiernan having learned that she was in doubt as to the fate of her second husband. Then the professor "came home."

The first Mrs. Tiernan was at the station. She paced the platform. When Tiernan got off the train she wheeled on him and for ten minutes poured out a torrent of abuse. Tiernan looked on, dazed. He said nothing.

Mrs. Tiernan's fury spent, the two took a taxi and returned to the Tiernan home. Later, they announced that they had become completely reconciled.

## IN THE SPOTLIGHT OF SPORT

By WOOD COWAN

When it comes to choosing the best man, in any of the 11 positions from all the line material developed this season among schools from east to west, it's some job. But among fullbacks you've gotta least take your hat off with a low sweep to John Thomas, the plunging back of Chicago university.

This fellow, almost single handed, tore Princeton's heavy fighting line to shreds. He made three touchdowns against the Tigers, scoring every point the Windy City aggregation made in the game with the Orange and Black.

The Coronado, California, Country club, is an advocate of "teaching the young how to shoot" and systematically going about the business of allowing the boys and girls to learn golf. Tournaments are arranged for the juniors who are children of the members and every possible encouragement is given them to take up and learn the game properly. This is a foresighted measure which, with the years, will tend to produce good players for the club and keep it in the golf map. Under proper direction and tuition, there is no reason why boys and girls should not take the game seriously, which must be the case if they are to excel in it, and under the circumstances the greens and fairways should not suffer any harm. To turn them loose to pick the game up without proper direction would, of course, be out of the question.

"Gloomy Gus" Henderson, football coach of the University of Southern California says he does not like his nickname and hopes that it will be relegated to oblivion. There seems to be no tendency on the part of the football writers to take Gus seriously for they continue to use the moniker. Once a man gets tagged there is little chance of outgrowing it.

Last season the Nevada varsity football team had a star player known to fame as "Rabbit" Bradshaw. This season it is "Bunny" Hug.

Hockey on the ice continues in vogue in the Pacific Northwest and such cities as Seattle, Portland, Spokane, Victoria, etc., already are getting ready for the coming winter. It is all a league matter in which each team plays about a dozen games or more during a season when the finals are entered upon. Whether or not a Eastern team such as Montreal will be played remains to be seen.

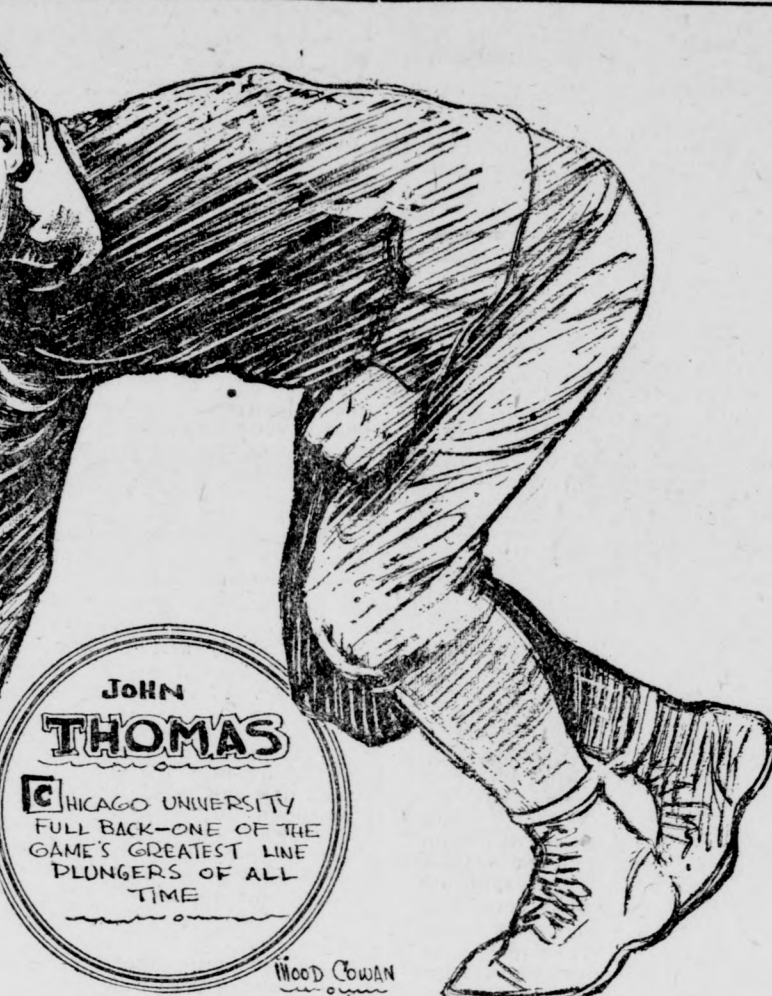

The first day in the house for the consideration of amendments and the rule under which the house operated made it possible for anything from tariff revision to the soldiers' bonus to be brought forward and urged as germane to President Harding's proposal to subsidize the American merchant marine.

The real fights will develop when the house is swamped with scores of amendments having a direct bearing upon the subsidy. Some of these changes will be proposed and backed solidly by the Democratic opposition pledged to defeat the bill. One of these is the amendment of Representative Davis, Democrat, Tennessee, who wants to throw out the Harding-Lasker plan altogether and to turn the merchant fleet over to the department of commerce.

If the Republicans defeat this proposal, and they say they have the votes to do it, they expect to have little difficulty in stamping out other insurrections that will arise from the opposition. The prohibition fight will flare up early. An amendment will be brought in by Representative Bankhead, Democrat of Alabama, proposing to bar liquor from American subsidized ships regardless of the attitude which may be taken by the United States supreme court in ruling on the validity of the Daugherty "bone dry" ruling.

A final vote on the bill is scheduled for Wednesday afternoon.

What did you buy in Glendale today?

In the first period against Princeton, Thomas carried the ball, seven out of a possible eight times in Chicago's march of 60 yards down the field to her first touchdown. And when on the Tigers' 35-yard line again, almost alone in six successive line smashes, he planted the pigskin behind the Princeton goal for a second touchdown. And in the third period, after a short rest, when Chicago had the ball in a scoring position on their opponent's 30-yard line, Thomas was rushed into the fray and, hurling his burly frame four successive times through the Tiger defense, he scored a third time.

When Thomas couldn't make a gain through the line he'd dive over it. He'd hurl his 180 pounds with irresistible force against opponent linemen time after time, seemingly unflinching. He is fast for a big man and quick at starting—seems to be under full steam ahead before he hits the line of scrimmage. Unlike many line plungers he keeps his feet. Fact is, it is almost uncanny the way he stays upright and keeps going among a pile of struggling forwards.

Once through, Thomas, with head up, picks the opening and it is here that he shows his real skill for he certainly thinks quickly. He dodges and side-steps opponents in rapid succession almost at every stride, often reversing his course as readily as some dodging quarterback.

There have been greater passers, punters, open field runners—but in crashing through opposing lines John Thomas, as he played against Princeton, has never, to our notion, had an equal in the grand old game of football.

They are all in. Captain De Groot, suffering excruciating pain from his ankle, went from the dressing room on crutches. Faville and Wilcox, who were all over the lot during the hectic afternoon playing a defensive and offensive game that stamped them as outstanding figures in the Cardinal's "last stand" were scarcely able to drag themselves under the showers.

Coach Kerr plans a complete rest for the squad before starting preparations for Pittsburgh. Stanford will not elect a captain until after the season officially closes. The fact that California elected a captain is believed to definitely put the kibosh on all rumors of the Bears might be "persuaded" to take part in a post-season game.

As many as possible of Walter Camp's mythical eleven of last year are being gathered together to meet an all-conference eleven at Columbus for the benefit of charity.

LOS ANGELES, Nov. 27.—The proposed return match between Dempsey and Jess Willard, former heavyweight champion, took added impetus here today, following a reported statement credited to Jack Kearns, Dempsey's manager, in the east to the effect that Willard is a soap box orator seeking publicity and the denial from Willard's publicity manager, Gene Doyle, that Jess was by no means an orator, much less of the soap box variety.

Kearns is quoted as saying that when Dempsey appears at a local theatre in December he will meet all comers, Willard included. Doyle took exception to this statement, claiming that Kearns knows that Willard cannot be in physical shape for a match by that time. The situation was then more complicated when it was reported from Buffalo that Willard yesterday dispatched a lengthy message to Charles Murray, promoter, tentatively accepting a match with Floyd Johnson and advising Murray that he was in fine shape, but was holding off to see whether Dempsey would really meet him or not.

SAN FRANCISCO, Nov. 27.—With their 28 to 0 victory over Stanford officially recorded in the annals of Pacific coast football, Don Nichols elected captain, training broken and nothing to do but study until next season, the 1922 California football machine, concededly the greatest in the history of the institution, today was but a memory. Andy Smith has nine months in which to worry over next year. That's the coach's job.

Things were not so rosy down at Stanford. The Stanford football machine must keep going. It has a post-season game December 30 with University of Pittsburgh. True there won't be much doing this week because the Stanford squad could not do much. It gave its last ounce of physical action Saturday. Its members staggered off the field completely "all in."

With the Violin Resonator—Period Models as Low as \$115

The Cheney has been called the finest of all phonographs, because it combines tone quality of wonderful richness, with cabinets made by the best furniture craftsmen in the country.

You must see The Cheney! The perfection of the cabinet work and the elegant simplicity of the period designs will delight you. And then you must hear it! For no words can describe its tones, so rich, so pure, and yet so sweet.

**We Invite You to Come In for a Demonstration**

We want to play this famous instrument for you. It plays all records, so you can call for whatever you like best in music.

Cheney tones are the result of improvements in acoustic science found in no other instrument. We will show you the famous Violin Resonator, the Orchestral Chambers, the Reproducer which practically eliminates needle scratch—all protected by basic patents.

Cheney cabinets are all in period styles—the work of the finest furniture craftsmen in the country. You will appreciate them.

**I'LL HELP YOU BUY IT**  
If you can spare \$30 per month (\$1 per day) above your present expenses, I will help you finance the purchase of a \$5000 home.

By this method my clients find that they obtain lower prices from owners; they are paying their rent to themselves; they are paying several hundred dollars less interest and they are acting as their own broker and banker.

I will help finance the purchase of any property to cost from \$1000 to as high as you care to go at less than 6 per cent net cost to you for the use of the money needed and all services rendered. The payments you can make each month will serve the extent to which I can govern you.

## CHRIST'S VIRGIN BIRTH IS TOPIC

**Rev. W. E. Edmonds Asserts It Must Be Believed Or All Is False**

Rev. W. E. Edmonds preached at the Presbyterian church Sunday morning on "Christ's Virgin Birth." A resume follows:

"This subject cannot be approached without feeling that we are on holy ground, tearing open the heart of God. But He intends we shall look in. We need to realize how much we owe to our Savior in His coming down into our humanity. God sent forth His Son, made of a woman, made under the law, to redeem them that were under the law, that we might receive the adoption of sons."

"For the last twenty-five years there has been a terrific assault upon the truth of Christ's virgin birth. This began in and spread throughout Germany, then it spread to surrounding countries, while it also attacked other fundamentals of Christian belief."

"In such a case who is the court of last appeal? We will let the word of God be its own interpreter, and stand by it though the heavens fall."

"Every phase of such attack is in direct thrust at the supernatural. If this fundamental truth of Christ's supernatural virgin birth is broken down, everything goes."

**Then All Is False**  
"They say it is not necessary to believe this; Jesus' life was a historic fact, that is enough, the manner of His birth does not signify; we are entirely free to set aside as false and inconsequential all the record relating to it, it is needless."

"But not! All goes when you throw out the virgin birth. All the foundations of truth start from this rejection. If that were false, all is false. God is false, the Bible an idle book."

"God's angel said of Mary, 'That which is conceived in her is of the Holy Ghost.' We have got to take this whether we can understand it or not, and must accept the scripture statement."

"Great emphasis is laid by the critics upon the silence of Mark and John and Paul as to Christ's birth. But consideration of the plans and purposes of their writings show why this is: Mark begins with Christ's public ministry, John traces the divine descent, not the human, and Paul everywhere gives implicit recognition, taking the virgin birth for granted and needing no statement; he said of Him, 'And being found in fashion as a man, He humbled himself.'"

"We must recognize that Christ's supernatural birth is a great mystery. We cannot understand the work of the Holy Ghost is beyond us. Soon now we will be coming to Bethlehem and the manger; you will not have much left to stand on there if you throw over this. Here we walk by faith, 'My Lord and my God.'"

**J. L. Schweimer Is Winner Two Prizes**  
Jackson's haberdashery, 120 East Broadway, Saturday night held its second prize drawing. First and second prizes were won by the same person: J. L. Schweimer of 335 South Adams street, Eagle Rock. He promptly came in this week and order his made-to-measure suit and his new pair of shoes.

Other prizes were won as follows: James Haddons, 122-A North Brand boulevard, bathrobe; R. L. Webster, 110 South Kenwood street, hat; Lloyd Ward, rural route No. 5, shirt; C. W. Gordon, 129 South Glendale avenue, necktie.

**Miss Vogel Writes Music for Song Hit**  
Miss Dorothea Vogel, of 408 North Kenwood street, talented vocalist and pianist, is receiving many compliments from her southern California friends upon the success of her musical arrangement for the song "Down on Paradise Isles" with words by J. W. Keller.

The song has been presented on Los Angeles vaudeville programs, at radio concerts and cafes and is now being published by an eastern firm. Sheet music sales houses are reporting a demand for the song, copies of which may be had at any of the local music stores.

Just a word to property owners desiring to sell. **HOLLIDAY REALTY CO.**, 402 E. Broadway, believes in faithful, conscientious service, using every energy and ability they possess to give the best service possible. When you exclusively list your property with any agent you must naturally look to that agent to sell it. Don't expect another agent is going to sell it for him—disappointment may follow.

Hazen J. Titus, of the Hazen

to the Salvation Army. This will  
be delivered to the hardware firm  
of Cornwell & Kelly, which will  
display the monster cake in its

At the head of the piano de-  
partment is Miss Gertrude Cleo-  
phas, talented pianist, who resides  
at 337 North Central avenue. It  
seems almost useless to attempt  
an introduction of Miss Cleophas  
to Glendale people as her wide  
study and natural talent and suc-  
cess have often been shown upon  
her appearances on programs lo-  
cally and in other parts of south-  
ern California. Miss Cleophas  
was for five years a piano student  
of Fanny Bloomfield Zeisler, fore-  
most American piano teacher.

**To Appear at Hollywood**  
Later Miss Cleophas studied for  
five years in Vienna with Leschet-  
izky, and upon her return to  
America appeared on concert pro-  
grams with the New York, Chicago  
and Minneapolis symphony orches-  
tras. While abroad Miss Cleophas  
appeared with the Berlin Philhar-  
monic orchestra.

Announcement is made of Miss  
Cleophas' appearance with the  
Los Angeles Philharmonic or-  
chestra in the Hollywood bowl this  
coming summer. Assisting Miss  
Cleophas in the piano department  
will be her pupil, Mrs. J. C. Baird,  
who is also a clever pianist.

Another prominent artist on  
the faculty will be Julius Kranz  
at the head of the violin depart-  
ment. Like Miss Cleophas, Mr.  
Kranz needs no presentation to  
Glendale people. He is an excep-  
tionally talented musician and  
composer. His compositions,  
which he has played for "home  
talks" first, are now being pub-  
lished in New York.

**Mrs. Cavanah Teaches Voice**  
Mrs. H. E. Cavanah, mezzo con-  
tralto, is assisting her husband in  
the voice department. Mrs. Cava-  
nah has a wonderfully well  
trained voice, the result of natu-  
ral talent and expert training. She  
studied for two years in Paris  
and in other musical centers in  
America, and with Mr. Cavanah  
has appeared in concerts abroad  
and at home.

With years of stage experience  
and training in directing and  
teaching as a background, Carter  
Moore assumes the duties of the  
head of the dramatic art depart-  
ment.

Classes are already in progress  
and arrangements for instruc-  
tion can be made at any time with  
Dean Cavanah at the school stu-  
dio on East Broadway.

A male quartet is now being or-  
ganized and plans are under way  
for the formation of an orchestra,  
and the securing of instructors  
for organ work and band instru-  
ments.

Dean Cavanah, who is keenly  
interested in the community ser-  
vice Christmas caroling, is urging  
high school people to cooperate. He  
hopes to interest the choir of the  
First Congregational church in  
participating as a body.

## THEATRES

### The Glendale

John Barrymore comes to the  
Glendale theatre today in "Sher-  
lock Holmes," the great Goldwyn  
picture that is sweeping the coun-  
try. This film is an adaptation of  
the famous William Gillette dram-  
atization of the immortal Conan  
Doyle character and is presented  
in a manner worthy of the ma-  
terial it offers.

Supporting Barrymore in the  
stellar role of the world-renowned  
detective is an aggregation of tal-  
ent that includes such stars in  
their own right as Carol Dempster,  
Roland Young, Louis Wolheim,  
Reginald Denny, John Willard and  
William H. Powell. The direction  
is by Albert Parker.

You can buy it in Glendale.

### The T. D. & L.

"One Week of Love," at the T.  
D. and L. theatre today, offers a  
fine blending of thrills and com-  
mon-sense that leaves one breath-  
less with surprise and admiration.  
The stars, Elaine Hammerstein  
and Conway Tearle, ably interpret  
a fast-moving drama that is con-  
vincing proof the true forte of the  
photoplay is out-of-doors and not  
between the walls of artificial stu-  
dio paraphernalia. To see it is  
like going away on a vacation;  
you come back refreshed and  
healthier for the experience.

The author, Edward J. Mon-  
tague, is one of the few screen  
writers who can handle the human  
heart on celluloid with that rare  
combination of strength and ten-  
derness.
